Richard Hawes Chapter Meets.

The Richard Hawes Chapter, U. D. C., held a meeting in their rooms in the court house Friday afternoon. After the routine business, the president, Mrs. Wm. G. Talbott, called attention to packages of seals to be sold for the Arlington Memorial to the Confederate soldiers who are buried at that historic place. She announced that Scovard, the distinguished violinist had been secured to give a recital in Paris on the evening of February 27. Mrs. Talbott read an invitation to the Paris chapter from the Hopkinsville chapter to attend the unveiling of a drinking fountain, which has been erected as a memorial to the Confederate dead of Christian county. Mrs. Nancy Ewalt McDonald then gave a full and interesting report of the general convention recently held in Richmond, Va. Mrs. John Connell read a chapter from "Causes Which Led to the Civil War," a book that has been written by Mrs. Eugenia Dunlap Potts, of Lexington. Mrs. C. C. Leer and Mrs. Perry reported that the Hamilton Guards realized nearly \$70 from the sock social recently held. Mrs. Henry S. Clay and Mrs. Mitchell Lyle were the hostesses, and served delicious salad, sandwiches and coffee.

New Barber Shop.

I am again in charge of my barber shop. I have in my employ three expert barbers—Henry Curtis, Grant Overby and Joe Billy Snapp. The place has been newly painted, papered and renovated, new plumbing, etc. I would be glad to see all of my old customers again and can assure them of first class service. My bath rooms are complete and modern. I respectfully invite the public trade. We will also make a specialty of work for children, such as hair trimming and hair "dutching," shampooing, etc.

CARL CRAWFORD.

Sale of Pooled Burley.

The Burley Tobacco Society has decided to place its 1909 pooled hoghead tobacco in the market at once, and today will inaugurate its initial sale of the season in Lexington, offering consignments at all of the warehouses. Tomorrow a sale will also be begun in Cincinnati. So far no announcement has been made of any of the burley tobacco being offered in Louisville. Officials of the Burley Society say that already several private sales of pooled tobacco have been made at satisfactory prices. Although the American Tobacco Company is not buying strong, it is believed that the offerings of high grade pooled stuff will attract the attention of the American and result in giving a better tone to the market.

Bloodine

We Know BLOODINE Will Help You To Regain Your Strength and Energy.

Report of the Head Physician in a Leading New York Hospital on the Cure of Catarrh.

"A few years ago we considered that we were doing well if we cured ten per cent. of the cases of catarrh brought to us, but since the introduction of 'Bloodine' into our hospital we cure more than 90 per cent. of all the cases of Catarrh in its various forms brought to us. Catarrh of the Head, Catarrh of the Eyes, Catarrh of the Bladder and Urethra, Catarrh of the large Intestines, Catarrh of the Larynx, Pelvic Catarrh, Catarrh of the Throat, and Catarrh of the Stomach are quickly cured with 'Bloodine.' It builds new tissues, gives new energy, new life, new blood and strength to any part of the body attacked by the Catarrhal germs."

Bloodine is a powerful tonic, nourishing food medicine, composed of valuable tonic stimulants obtained from vegetable drugs. 'Bloodine' contains no narcotics or other dangerous drugs which merely deaden pain temporarily, but give no permanent relief or cure the cause of your disease. 'Bloodine' is a powerful body builder and blood maker; it is the best remedy known to the medical profession to enrich thin, watery blood and supply new, rich red blood to the whole body.

FREE - To prove the wonderful merits of BLOODINE we will mail a large sample bottle for 10 cents in silver or stamps for postage.

Saved Child From Death.

"After our child had suffered from severe bronchial trouble for a year," wrote G. T. Richardson, of Richardson's Mills, Ala., "we feared it had consumption. It had a bad cough all the time. We tried many remedies without avail, and doctors' medicines seemed as useless. Finally we tried Dr. King's New Discovery, and we are pleased to say that one bottle effected a complete cure, and he is again strong and healthy." For coughs, colds, hoarseness, lagrippe, asthma, croup and sore lungs it's the most infallible remedy that's made. Price 50c and \$1. Trial bottle free. Guaranteed by Oberdorfer.

Entirely inadequate.

"I offered to let him have a hundred." "That would only be a drop in the bucket-shop."—Life.

Is the World Growing Better?

Many things go to prove that it is. The way thousands are taving to help others is proof. Among them is Mrs. W. W. Gould, of Pittsfield, N. H. Finding good health by taking Electric Bitters she now advises other sufferers everywhere to take them. "For years I suffered with stomach and kidney trouble," she writes. "Every medicine I used failed till I took Electric Bitters. But this great remedy helped me wonderfully." They'll help any woman. They are the best tonic and liver and kidney remedy that's made. Try them. You'll see. 50c at Oberdorfer's.

A Democratic Way.

Congressman R. L. Henry, of Texas, chairman of the Rules Committee of the House, will make an effort during the coming session of Congress to amend the Sherman anti-trust law that "trust criminals," as he terms them, may be put in jail when they violate the law. He is convinced there is no other remedy for the trust evil.

"Fines and dissolution suits are child's play for trust magnates," he said, explaining the bill he will introduce. "Felon's stripes is the only remedy for these commercial outlaws who violate the law. My bill legislates the 'rule of reason' out of the Sherman law, and specifically defines just what constitutes a trust, so that there can be no further evasion on the ground that the statute is ambiguous."

The Henry bill will provide for imprisonment for not less than two years for each violation. The Texas member has assurances, he says, that his bill will become a law.

Retailers are Bad Men.

The retailers and not the trusts nor the tariff are responsible for the ever increasing cost of living in the United States. At least is the semi-official statements as to the work of the tariff board are to be believed, this is the kind of a report that is to emanate from that body. "Up with the tariff rates. Down with the dry goods merchant and the corner grocer," will likely be the protectionist cry of protectionists and near protectionists, started out with the obvious determination of finding the tariff not guilty, and they intend to return such a verdict, even though the political heavens fall.

Trusts Still for Taft.

That the plutocratic trust owned corporation papers do not consider Mr. Taft an enemy of the trusts despite the "filing" of the suit against the steel trust, is reflected in the editorial columns of these papers, says the Washington Bulletin. He is still "safe and sane," to be depended on and he will get loyal support of the trusts in the next presidential election. The suit can not come to trial until after the next presidential election. If the trusts are to be put out of business and competition restored, it will be done by a Democratic president—not by a Republican president.

"Economy of Production."

Tainted news articles are being sent out from Washington to the effect that if the steel trust is forced to dissolve—it will be too bad for the poor consumers, for they will henceforth be deprived of the "economy of production" resulting from the one man management of the steel business of the country. The literature goes on to say that a great saving has been effected by the scientific systemization of steel manufacture by the trust.

The fact is, however, that the present prices of tin plate, wire and wire products, are from ten to fifty per cent higher than the prices that prevailed before the formation of the tin plate and wire trusts in 1898. As a result of the "economy of production" which accompanied the birth of the barb wire trust, the price of that article jumped from \$1.80 per hundred pounds in 1898, to \$4.13 in 1899. The present price is \$2.05, and the quality much inferior to that turned out before the trust was formed.

The steel rail pool maintained the price of steel rails rigidly at \$38 a ton every day since the steel corporation was formed. Previously, steel rails were selling well below \$20 a ton.

The rule has been that prices have advanced rapidly when trusts were formed. If, as the steel trust literature alleges, there were "great economies of production," the same has gone to pay dividends of highly watered stock, to offset heavy contributions to Republican campaign funds and to make up the \$29,000,000 of clear profit that J. P. Morgan drew for the part he played in organizing the illegal steel trust.

Majority of McCreary is 31,335.

The official majority of Governor McCreary is 31,335 in the whole State. He received 226,771 votes as against 195,436 for O'Kear. McDermott received 221,534, as against 190,890 for Brantow, a majority of 30,644.

Compilation of figures in the other races has not yet been completed, and will not be until this afternoon.

The total vote cast in the election for Governor's race was 422,207, as compared with 410,909 in the Hager-Wilson race in 1907. McCreary received 30,343 more votes than did Judge Hager, and O'Kear received 19,045 votes less than did Gov. Willson, four years ago.

Kentucky Ranks Sixteenth.

Contrary to general belief in the value of horses Kentucky ranks sixteenth among the States of the Union, while in the value of mules she ranks fifth, as also in the value of asses and burros.

These facts were made public in tables prepared by the Census Bureau and announced Thursday. The tables show:

That the value of Kentucky's horses, mules asses and burros is \$71,974,426, a figure exceeded by fifteen States, headed by Iowa.

That the number of Kentucky's horses, mules, asses and burros is 672,153.

That the value of Kentucky's horses is \$44,747,640, their total number 442,539, of which 387,366 are mature.

That the value of Kentucky's asses and burros is \$846,266, and they number 4,667.

That the average value of a mature Kentucky horse is \$106.22 and a mature mule \$124.50.

The average value of a mature horse in this country is \$112.53, or \$6 more than a Kentucky horse, and the average value of a mule in the United States is \$131.54, or \$7 more than a Kentucky mule.

Sally Charges in Whittapping Case.

A dispatch from Carlisle Friday said: "Charging that they were taken from their homes in the dead of night on October 20, intimidated with guns and knives and then mercilessly beaten with switches and straps, Mrs. Mary Honaker and W. H. Scott have sworn out warrants for the arrest of three sons of Mr. Scott, and three other prominent farmers of Bourbon county. The swearing out of the warrants, which came to light only this morning promises to produce one of the most sensational cases in the history of Nicholas county, as all of the people are well known and charges of a most startling nature are presaged."

Those for whom warrants were sworn out are Hoard Scott, John Scott, Joseph Scott, John Bettus, Frank Crouch and Dawes Terrell. W. H. Scott, the father of the three Scott boys, and one of the joint complainants in the warrants is more than seventy years old and owns one of the largest farms in this section. Mrs. Honaker lives on the Scott place and it is said she and Scott were together when they were dragged from the house and beaten.

"It is charged that the instruments used were switches about the size of a buggy whip, and a heavy leather strap."

STOCK, CROP AND FARM NOTES

—David M. Look, a Kentuckian by birth, who has become a millionaire in New York, has bought the magnificent Castleton estate of James R. Keene, the veteran New York financier, near Lexington, and will retire from business and return to Kentucky to make his home at Castleton. Mr. Look will not continue the breeding of thoroughbred horses, but will use the place primarily as a home and devote some of the broad acres to raising a few trotting horses and to the raising of blue blooded cattle. The farm contains 1,058 acres, and while the purchase price is not known here, it will probably reach a quarter of a million dollars.

—The receipts of live stock at the Chicago market for the week ending November 188 were in round numbers 84,300 cattle, 159,400 hogs and 160,000 sheep. The week's receipts, compared with the previous week in round number increased 11,100 cattle, 7,900 hogs and decreased 6,800 sheep. Compared with the corresponding week a year ago cattle increased 13,700, hogs 18,700 and sheep decreased 8,900.

—E. R. Little, of Mt. Sterling, sold to Lem Snyder of same place, a filly colt by Baronmore 2:14, out of Bessie Brown 2:12 1-2. Price \$350.

—Lang T. Anderson, proprietor of Point Au View Stock Farm, Mayaville, sold the past week to J. L. Bushnell of Springfield, O., a trotting bred show gelding that this well known horseman thinks is one of the best he ever owned and while the price is not made public it is said to be close around the \$2,000 figure.

Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No honest dealer will advise you to accept a substitute in order to make a little larger profit.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

Naturally Filtered Water.

An English naturalist, who has explored the mountain ranges of the Malay peninsula, reports that in several species of bamboo the hollow internodes—the parts of the stems between the joints—are stored with large quantities of naturally filtered water. He also discovered two species of ferns, growing on trees whose thick, fleshy stems are filled with galleries tunneled by ants, the ferns thus forming living nests for the ants.

New Use for X-Rays.

It is claimed that the X-rays have been successfully applied in France to the detection of adulterations of food, where the adulterants consist of some kind of mineral matter. The food to be examined is reduced to powder and spread thinly upon glass. An X-ray photograph of the glass reveals the presence of the mineral particles by the failure of the rays to penetrate them as they penetrate the other constituents of the powdered food.

Fog Hard to Pierce.

A dense or thick fog will obscure objects at a distance of 1,000 feet. The recent accident to an ocean steamer of the Anchor line illustrates the fact. An iceberg was run into as soon as seen. After the collision the passengers could hear the echo from their voices reflected by the walls of ice, though the iceberg was invisible to them. Otherwise, there are no echoes at sea.

Peculiar Appeal.

There is a peculiar loveliness in the cheerfulness of sick people. It is unexpected—like the bit of green in the desert, it gains by contrast. It is the flower of the spirit produced in a wilderness.—J. Edward Harlow.

Treat Fear as an Enemy.

Butler and Robert Link from the Second Ward and James B. Dempsey and L. Wollstein from the first Ward. Those who will take the oath next Monday night will be Dr. W. T. Brooks, Geo. D. Speakes and F. L. Walker, First Ward; Dr. Wm. Kenney, D. C. Parrish and W. O. Hinton, Second Ward, and Harry Baldwin, Third Ward. The selection of the city officers that come within the appointive power of the Board will be the last regular meeting in December.

"Stint" and "Stunt."

Stint is a good word as a noun. As a verb it means something not quite so pleasing. Do not confound it with stunt, however. A stunt is something quite useless. It is the horse-play of the mountebank, and has nothing in common with honest, productive labor. A stint is the warning to the wise that something demands to be accomplished; a goad to the laggard that time is on the wing.—Atlantic.

Circuit Court Convenes.

With Judge Robert L. Stout presiding the November term of the Bourbon Circuit Court convened in this city yesterday morning. Judge Stout's presence on the bench at this term is the first since illness forced him to retire temporarily to recuperate and from all appearances he has been greatly benefited by his enforced lay off.

Col. Robert B. Franklin, Commonwealth Attorney, arrived yesterday morning from his home in Frankfort and was present when court opened.

Following the call for motions Judge Stout swore in the sheriffs of the court, Sheriff A. S. Thompson and his deputies, W. F. Talbot, J. O. Marshal and Ernest Martin making the oath.

The grand jury, which is composed of the following, was then sworn, Clerk W. H. Webb administering the oath:

Walter Kenney, foreman; J. B. Wood, E. C. Cleveland, W. R. Blake, Chas. D. Wilson, Geo. Current, Chas. Squires, Homer Hutchison, W. J. Calvert, Frank Collins, Samuel Mackey.

Judge Stout's instructions to the grand jury were of considerable length and in his remarks he touched upon all the most important points to be brought to their notice.

After conferring with the peace officers Judge Stout stated that he was apprised of the fact that the conditions of the county were good, which he said was in a great measure due to the diligence of the grand juries at previous terms, in bringing to justice violators of the law.

"To keep up the proud reputation of the grand county of Bourbon," said Judge Stout, "this and succeeding grand juries must do the duty which they are sworn to do." Further, he said, there were laws, the infraction of which in numerous cases were disregarded with the result that they culminated in offense of a more serious nature.

Minor infractions, such as the illegal sale of liquor, violations of the Sabbath laws, carrying concealed weapons and the laws for the protection of fish and game.

Judge Stout urged the grand jury to investigate anything of this nature brought to their knowledge after they had disposed of the cases coming from the lower courts, which in a number of cases, the defendants were confined in jail, that the accused may have speedy trials. The grand jury then retired to begin its deliberations.

Judge Stout then made a call of the docket when court was adjourned to resume at 9 o'clock this morning, when the Commonwealth docket will be taken up.

Yesterday afternoon Judge Stout heard the case of Millie Blakey, a colored woman residing in the suburb of Lylesville, who was arraigned on a lunacy charge, and ordered her taken to the Eastern Kentucky Asylum at Lexington.

Will Decided in January.

Norman E. Mack, chairman of the Democratic National Committee announced Friday that the next time and place for holding the next national convention would be decided January 8 at a meeting in Washington.

THEATRICAL.

"AROUND THE CLOCK."

The title, "Musical Comedy," covers a multitude of "bunk." In other words it is a title applied to a great number of so-called plays with music, for the purpose of attracting the attention of music lovers to a very inferior attraction. "Around the Clock" has the endorsement of the press of both England and America, as containing more real novelties than ever before presented in one evening's entertainment. London saw the piece more than five hundred performances and New York saw it three hundred nights. The author wasn't love sick so he failed to introduce any new sort of "Love in the Moonlight" mush. He figured that a laugh would do more good and "touch the spot" quicker. A laugh to every tick of the clock and a smile between, a little tuneful music to rest the aching sides and a bunch of exceptionally pretty girls to give it zest, an entertainment actually made to order for your special entertainment. A company of singing and dancing artists and comedians headed by Bille Ritchie will give the play exactly as presented in New York and London at the Paris Grand for an engagement of one night and matinee, Saturday, December 2.

"The Auto that Ought to But Wouldn't," is the title of a comedy bit which will be introduced during the action of the play by Mr. Ritchie and his associates. Every owner of a car can learn something about its intricate mechanism by seeing this ridiculously funny farce. Wait for "Around the Clock." It's the best entertainment to be here this season.

DANTE'S "INFERNO" AT THE GRAND.

You can't afford to miss it. The only genuine and original Dante's "Inferno," five reels, Milano make, known as the "Picture of Fame," positively the only photo play in the world that has aroused the curiosity of kings and queens. Viewed by millions of people throughout the entire world. One man's dream of what hell really is, by that illustrious poet, Dante, famous the world over. This picture is of the series of Hell, Purgatory and Paradise, and is beyond the imagination of man. The cast is so powerful as to hold the masses in its awe-stricken grasp. Viewed by press clergy and scholar. Classic beautifully portrayed in sublime pictures. Come and behold the masterpiece of moving picture art. Special music and wonderful effects.

At the Paris Grand on Wednesday and Thursday, November 29 and 30. Special matinee on Thanksgiving afternoon. Admission adults 35 cents, children 25 cents; matinee, children 15 cents, adults 25 cents. No reserved seats.

SPECIAL ANNOUNCEMENT.

On account of the presentation of the moving pictures of Dante's "Inferno" at the Paris Grand on Thanksgiving Day there will be no performances at the Comet Theatre on that day, either afternoon or evening.

Beattie Dies After Confessing.

After making a confession, "so that he might stand right before God and man," Henry Clay Beattie, Jr., was electrocuted in the penitentiary at Richmond, Va., Friday morning at 7:23 o'clock, for murder of his wife.

The confession was brief, containing but fifty-one words, and was not given out until Beattie had been dead nearly four hours. It was made public following a conference between the ministers who consorted the prisoner in his last hours and Henry Clay Beattie, Sr. The ministers and the aged father decided that the confession should be made public, and this was done immediately after the conference ended.

Beattie displayed remarkable nerve and walked to the electric chair from the death cell with an unflinching step. Beattie's confession is as follows:

"I, Henry Clay Beattie, Jr., desirous of standing right before God and man do, on this, the twenty-third day of November, 1911, confess my guilt of the crime charged against me. Much that was published concerning the details were not true, but the awful fact, without the harrowing circumstances, remains.

"For this action I am truly sorry, and believing that I am at peace with God, and am soon to pass into his presence, this statement is made."

Will Close On Holidays.

Slaughtering Season Closes.

The season for slaughtering turkeys for the Thanksgiving market closed Saturday. Brent Bros., of this city for the past two weeks have had their plants in Paris, Millersburg, Flemingsburg and Carlisle going at full blast with the result that upwards of 57,000 turkeys were slaughtered at their pens in the four towns. At Carlisle 6,000 were killed, 12,000 at Millersburg, 10,000 in Paris and about 9,000 in Flemingsburg. The turkeys were purchased at an average of 12 cents per pound, and the large number which were delivered at the pens of the Paris firm represents an immense outlay of money, which was poured into the counties of Bourbon, Nicholas and Fleming counties. The fowls were practically all shipped to the Eastern market, for the Thanksgiving trade, the last shipment being made from this city last Saturday when two express cars left here over the L. & N. enroute to Boston. Mr. F. P. Walker is with the firm of C. S. Brent & Bro., is in Boston looking after the interests of his firm in the sale of the fowls.

Busy Day in Court.

Judge E. B. January had seven violators before him in Police Court yesterday. Chas. Bow and Joseph Barlow, both white men, who became involved in a difficulty in the rear of Saloshin's saloon were arraigned on the drunk and disorderly charge. In the altercation Barlow is alleged to have struck Bow with a pair of brass knuckles and the latter in turn cut a deep gash in Barlow's neck. In Police Court Barlow stated he would not prosecute Bow and Judge January settled the matter by giving Bow a fine of \$17.50, while Barlow on the same charge was fined \$12.50.

The other cases disposed of by Judge January were as follows: John Honican, white, drunkenness, \$7.50; W. S. Racer, white, drunkenness, \$7.50; James White, white, same offense, \$7.50; Henry Miles, colored, drunk, \$7.50; Steve Trabue, white, provoking an assault, \$7.50.

President Neal Gains Point.

At the meeting of the Minor Base Ball League Club representatives held recently at San Antonio, Texas, attended by President Wm. Neal, of the Blue Grass League, it was decided that the draft price for players in Class D League Clubs would be hereafter \$400 instead of \$300 as heretofore. The Bluegrass League in the Class D list and the news of the increase in the draft price will be good news to the clubs in this circuit.

Class C is raised to \$300 and Class B to \$750.

Another project in which President Neal was greatly interested, was the plan of grading umpires the same as players, keeping them on the reserve list of Leagues and fixing a draft price by which they may be secured by higher leagues.

The Holladay Kind.

Miss Holladay's home made black cake, plum pudding and mince meat have a famous reputation and are as good as can be found anywhere. Keep this in mind when you think of your Thanksgiving dinner. 24 2t

Garrard in First Rank.

Garrard county is "some pumpkins" when it comes to growing what is regarded in some sections of the country as much a necessary part of the Thanksgiving feast as his royal highness, the turkey. Proof of this is found in a monster pumpkin, round, golden and plumped out with goodness, which Ephraim Leavell took to Lancaster a few days ago. As determined by true and reliable scales the pumpkin weighs ninety pounds.

Fifty Boys Entitled to Diplomas.

Commissioner of Agriculture Rankin has notified the County Superintendents of Schools to send him a list of the boys entered in the corn growing contests, under 15 years of age, who raised 60 bushels of corn to the acre or 30 bushels to the half acre, and in turn he will mail them diplomas signed by the Governor, Superintendent of Public Instruction and by the Commissioner of Agriculture, which he offered as prizes last spring. He received a communication from the County Superintendent of Taylor county stating that 50 boys under 15 years of age had raised more than 30 bushels of corn to the half acre in that county.

RELIGIOUS.

—The services at the Baptist church Sunday evening were largely attended. After preaching a powerful sermon, the pastor, Rev. E. M. Lightfoot, administered the ordinance of baptism to two young ladies of the Bourbon College. The ritual was very impressive and the entire congregation arose and sang the "Glory Song" during the service.

Read what Cardui did for Miss Myria Engler, of Faribault, Minn. She says: "Let me tell you how much good Cardui has done me. As a young girl, I always had to suffer so much with all kind of pain. The Joys of Christmas Time

By Kennett Harris

Hark! the merry chimes are warning us that this is Christmas morning. And it's time that we were rising, though the hour isn't late. Still, the kiddlets will be flocking, each to overhaul his stockings. And there's scads of things we've got to do that really cannot wait. Let's indulge in dreamy musing on this joyous Christmastide; Let us, while the bells are pealing, get up some real Christmas feeling. Fill ourselves with sweet emotions that are not quite cut and dried. True, the minutes fast are gliding, but, consarn 'em, let 'em glide.

Think of these long weeks of waiting, all the glad anticipating Of the gay and festive season that at last, at last is here; Never resting, never stopping in our mad career of shopping, Searching over the ideal, not too cheap and not too dear; Crushed and elbowed in the reeking crowds, that like ourselves are seeking Just the very thing of all things that their loved ones most desired. Limp and dragged then emerging from the pushing, struggling, surging Mob, with parcels overlaid, reaching home at last, dog tired. Those experiences may be best described as "most all-fired."

Yet no antiquated stoic showed endurance more heroic Than we've manifested through the weary ordeal of that time; We have stood the stress of barter with the courage of a martyr; Now we find sweet compensation list'ning to the Christmas chime. Whose clear cadence, soft and mellow, seems to whisper to a fellow That the worst is nearly over, that we soon may breathe again, Soon may find surcease of sorrow, and that, maybe by tomorrow Or the next day, may be lifted something of this mental strain. That a blessed sense of rest may soothe the tissues of our brain.

We have done with haste and flurry, no occasion now to worry, Lest some sensitive relation may have been quite overlooked. All the lists of names are checked and all the walls with green are decked, and Now within a few short hours the Christmas dinner will be cooked. Hall to Christmas! happy season! There is some substantial reason To be gleeful at thy advent—the beginning of the end. As thou comest wreathed with holly, we can certainly be jolly, Welcome thee with feast and wassail, and in general unbend, For we know that we have spent for thee the last cent we can spend!

Now the door bell will cease ringing to the people who were bringing An endless string of packages from morn to dewy eve; We no longer will be running to conceal those things with cunning, And we'll lose our wonted air of having something up our sleeve. There will be a deuced litter, when the gewgaws gleam and glitter, Of waste paper, string and cotton, from the kitchen to the hall; But, with consciences elastic, we will grow enthusiastic And "wonder how they guessed," as on the donors' necks we fall, Looking blissful over dewdads that we didn't want at all.

Ah, this blessed thing of giving! It is half the joy of living To watch the looks of gratitude and pleasure and surprise That, at least to outward seeming, are upon loved faces beaming— As the loved one opens his parcel and digs out his gaudy ties. And the gentle wife and mother her emotion tries to smother When conducted by her husband, to some secret corner, where, As a proof of fond affection, he has hid from her detection, His gift to her, a cozy, costly, well-upholstered chair (Of whose comforts, in the future, you may bet he'll get his share).

Now this Christmas spirit moves us to sense that it behooves us To keep Poverty's bare platter and all Destitution's cup. Bring turk and pie and gladness to the homes of empty sadness! To help out sweet Christmas charity who would not loosen up? But it's highly aggravating not to say exasperating, When we've given most nobly and without thought of stint, To find out, as we expected, that the modest are neglected And our princely benefaction hasn't found its way to print. (Certainly we didn't ask it, but a man might take a hint).

But away with sad reflection! This is no time for dejection. Merry Christmas, happy Christmas, as we said, has come at last! All the many tribulations, all the trials and vexations That have crowded thick upon us for the last six weeks, are past. Not a protest shall be uttered, though the house with toys is cluttered And the kids are all parading to the sound of horn and drum, Lusty lung and larynx, voicing the extent of their rejoicing. We will have to stand the racket now that Christmas day is come. (Later tone our nervous system at some sanitarium).

Let us be profoundly grateful that we have at least a plentiful, Grateful for the pepsin tablets that correct our Christmas cheer; Hold it as among our mercies if there's coin left in our purses. Be thankful for those dear to us and those who hold us dear. (And most supremely thankful Christmas comes but once a year).

CHRISTMAS IS A PROPHECY

It Forecasts the Perfect Social Conditions Which Will Fulfill the Promises of Christ.

Christmas is not only a fact commemorating the one sacred festival in the world's calendar, but the glorious prophecy of a coming day, surpassing all the brightest social dreams that have ever visited the most advanced human mind. He sprang on His human nature side, from kings and peasants, from saints and sinners. He is yet to lift every peasant to the kingliest throne of character and transform the chief of sinners into the holiest of saints. He allied Himself with poverty and the common people. He is yet to banish poverty with all

its ills, from the world, and to give to common humanity their rightful sovereignty. He worked with His hands for His daily bread. He is yet to dignify and glorify in the thought of mankind all honest toil. He honored woman with His sympathetic and appreciative regard. He is yet to relieve her from every form of serfdom created by the past ages. He took little children in His arms and blessed them. He is yet to make blessed the child life in every welcoming home. He gave His peace to His distracted disciples. He is yet to make wars cease unto the end of the earth. He united His brethren with Himself and His Father in one unbroken oneness. He is yet to make every man a brother to his fellow-man and at one with his Father in Heaven.

WEALTHY FARMER IS ATTACKED BY AN OWL

Suffering From Wounds Inflicted in Broad Daylight by In-furiated Bird.

West Alexander, Pa.—His furious fight with a huge owl may be fatal to Philip Cruzan, a wealthy farmer, who is suffering from terrible wounds inflicted in the battle at his home. Cruzan, who is very feeble, while walking across his front yard was struck in the face by the owl, which in its blind flight apparently collided with him unintentionally.

The big bird fastened its talons in Cruzan's collar and aimed a vicious at-

tack with its beak at the aged man's face. Cruzan was unable to tear the bird, which was a tremendous one of its species, from its hold. The owl appeared unusually ferocious in its attack and soon had Cruzan blind from the blood which coursed over his eyes.

Exhausted, he finally sank to the ground, where he was completely at the mercy of the owl. He was found some time later unconscious, with the owl still pecking and clawing him with beak and talons.

MAN IS BLINDED BY HORNETS

May Lose Sight of Both Eyes as Result of Trying to Exterminate Nest.

Millville, N. J.—With sight of both eyes lost and his hearing probably permanently impaired, William Ford is in a serious condition as a result of striking a nest of hornets on Crow's Nest farm, near Pine Grove. The hornets had been bothering cattle and Ford resolved that he would destroy the nest. With a stout club he set out to

accomplish the task. He hit the nest once and in a second the hornets swarmed about him. His features are unrecognizable.

CHOPS TREE TO CATCH THIEF

Woman Falls, However, to Capture Peach Loving Lad, Who Scampers Off.

Alton, Ill.—Rather than lose the fruit of a peach tree by boys stealing, Mrs. John Dufold chopped down a tree in which a boy sat on a branch grinning at her. The boy munched peaches during the razing operation. Her pleas to let her peaches remain on the tree were not answered by the neighborhood boys. When she saw a boy on the topmost branch, she ordered him down. He did not obey. When she began whacking on the tree trunk with an ax the boy climbed to a lower branch.

"Now I've got you," she shouted as the tree fell.

She was mistaken, however, as the boy scampered across the yard when the tree and its fruit struck the ground.

An Innovation in Oil Heaters

The Perfection Smokeless Oil Heater, with its drums enameled in turquoise, is an ornament to any room, whether in the country or city home.

No home is quite complete without a Perfection Oil Heater. It is a necessity in the fall and spring, when it is too warm to start the regular heating apparatus, and too cool to be without heat. In the midst of winter it is often convenient as an auxiliary heater; as there are always some cold corners in a house.

The enameled heater always presents a nice appearance, as the enamel will not tarnish or burn off. It is not an "enamel paint," but it is the same as the enamel of your cooking utensils.

The Perfection is the most reliable and convenient portable heating device you can find. An automatically-locking flame spreader prevents turning the wick high enough to smoke.

Too Bad That She's Gone.

Somebody who has taken the trouble to investigate has found that Elizabeth Barrett Browning tried to make "eagle" rhyme with "vigil," "helress" with "terrace," "nature" with "saffire," and "woman" with "gloom-ing." It is a pity that Mrs. Browning is dead. She might, if she could return, make a wonderful success as a writer of lyrics for musical comedies. Undoubtedly she possessed the chief qualification.

Interesting Relic of Old Days.

The remains of the old Roman boat found embedded in Thames mud during the sinking of the foundations of the London county hall, at Westminster bridge, were transferred to the London museum. A coin which was found in the boat points to its date being probably about 293-296 A. D. Researchers have led to the opinion that the old boat is probably a relic of the first fleet formed to protect the shores of Britain.

ASKS STATE AID TO DRIVE OUT SNAKES

Kansan Has Killed 200 Reptiles and Sees No Hope of Victory.

HIS FAMILY IS ROUTED

State Board of Health Instructs Chemists to Devise Something That Will Rid Farmer's Home of Pests—House Infested With Blacksnakes.

Topeka, Kan.—Chemists have worked out medicines which will drive rats and mice and insects out of a house, but none ever developed a scheme that will drive snakes out. The Kansas board of health has asked the chemists of the State university and Agricultural college to see if they can find something which will drive blacksnakes out of the home of Theodore Herman at Beloit.

Herman has appealed to the board for something which will let him live in the house. He was driven out of his home two weeks ago by blacksnakes and has not been able to exterminate them yet, although he has killed more than 200. The snakes are apparently as thick as ever.

Herman is a prosperous farmer and lives two miles from Beloit in a stone house, built many years ago. One afternoon Mrs. Herman put her baby in the go-cart preparing for a walk. The baby had broken its bottle that morning and Herman was going to bring a new one home that evening. A bowl of milk was placed in the bottom of the

Snakes in Her Hat Box.

go-cart and the baby ate through a long rubber tube.

Mrs. Herman left the baby in the hall while she went to the living room to get her purse and hat. She heard the baby laughing and thought some of the neighbors had dropped in for a visit. She walked into the hall and found two big blacksnakes eating the milk in the baby's bowl.

Mrs. Herman ran to the baby and carried it in her arms while she went back to get her hat. She found two more snakes in her hat box and another crawling up the leg of the dressing table. Mrs. Herman was afraid to leave by the front door where she had seen the two snakes eating her baby's milk so she started out the kitchen door and found three snakes hanging from the sill. Mrs. Herman escaped through a window and went to her mother's home.

When Mr. Herman came by his wife stopped him and told of the snakes. He went home, accompanied by his wife's brother, to exterminate the snakes. Herman picked up what he thought was a stick and the first thing he knew he had a snake coiled around his arm and hissing in his face. They killed 20 snakes that night and have killed from six to thirty every day since, but each day they find the snakes as plentiful as before.

No one knows where the snakes came from or how they happened to appear in such numbers and in this house. Killing them does not eradicate them, so the state's chemists are trying to find something that will drive them out. fumigating the house with strong formaldehyde candles and with sulphur failed to keep the snakes out more than an hour. The Hermans are living at the home of Mrs. Herman's parents.

Negro Drayman Turns White.

Bloomington, Ind.—William Arnold, aged sixty, a negro drayman, is gradually turning white. Following an illness which was believed to be tuberculosis, white spots appeared on his hands. The skin became tender and the white spots grew larger. At the same time Arnold improved in health until he is now in excellent physical condition. His body is covered with large white spots.

Lightning Spoils Girl's Joke.

Atchison, Kan.—"I am going to stand here and let the lightning strike me," Flossie Bowman said jokingly while she stood on the back porch of her home near Parnell. A second later lightning struck the lawn 20 feet from where she was standing, rendering her unconscious some time and leaving her in a dazed condition the rest of the afternoon.

Thanksgiving Values IN GOOD FURNITURE!

Always Something New to Show You

We would be glad to have house-keepers drop in on us any day just to look around.

Hardly a day passes but we add something to our stock.

The factories are busy at turning out new things, and of course we get our share.

The other day we received a consignment of RUGS, the most attractive, we think, we ever saw, new in design, beautiful in finish, and sturdy and long-lasting.

Any home that is in need of one of these ought to get supplied now. Prices \$10 up, and worth it.

How You Sleep

Depends quite a bit upon what you sleep on. Ideas about mattresses have changed in recent years, and mattresses have changed to suit.

Now you find some mattresses have names, which doesn't hurt them a bit, but you can also find loads of good mattresses without names.

We have both.

We have them every size and weight and quality.

Every mattress is carefully made along hygienic lines, and is worth every cent we ask for it.

We invite you.

An ad about Iron Bedssteads

There's a lot to tell you about them, more, we are afraid, than we will have room for.

But let's begin by saying that we have a nice large selection to show you.

They are heavily enameled, all sizes. Most of them have attractive ornamentation.

The best ones cost the most, of course, but you can get a bed good enough for anybody, full size, at little cost.

But you had better first let us show you just what our line is like. Then you can quickly make a selection.

Good Furniture Values

Depend firstly and mostly on good Furniture.

There's more likelihood of your paying too little than too much.

If you look at the Furniture question right, you'll decide to spend enough to get all the value that there is going.

If you will let us, we can show you just why our Furniture is worth your attention and your money.

Can let you see for yourself the points where it excels.

Because it DOES excel—there is no doubt in the world about that.

TRIALS OF WATERMELON LOVER.

They were seated around the table partaking of watermelon, so the talk naturally turned to the luscious fruit. "It reminds me of a conversation which took place between two colored women," said one of the guests.

"Um-a, but Ah certainly does love watermelons," said one. "It sure does tickle mah palate. How does you like watermelons, Sister Lize?"

"Wa-a-l, Ah tells you, Sis' Jane," returned the other. "Ah certainly does love watermelons, but I can't eat 'em."

"Wall, that am too bad. What am de matter, Lize?"

"Wall, that am like dis, Sis' Jane. I lobes watermelons, but Ah always gets mah ears wet when Ah eats 'em."

Had Approval of Clerk.

An Atchison business man, who has a small store, recently hired a clerk who was very shiftless. He didn't half attend to his duties. "I think I'll have to hire another clerk," said the business man. "You ought to," was the reply, "there's too much work here for just one clerk."

Domestic Economy.

American Medicine says that the supply of housewives is falling off and young men delay marriage because of the decreasing purchasing power of the dollar. Nevertheless, we know a lot of fellows who never knew what the purchasing power of a dollar was until they married.

Finesse.

"How did you get old Bunkins' consent to marry his daughter?" "Finesse, my boy—just finesse. I told all over town that he had caught seventeen four-pound bass on that last fishing trip he took."

ALWAYS RELIABLE

TEACHER IS TREED BY A BLACK BEAR

Pennsylvania Schoolma'm in Lonely House Wigwagged a Passing Teamster.

BRUIN ON FIRST FLOOR

Girl While Preparing for Opening of the Term Accidentally Locked Up With Brute, Which Had Been Foraging Among Dinner Pails.

Galeton, Pa.—A teamster driving along the lonely Kettle Creek road the other day had his attention attracted by the frantic wailing of a pair of human arms that were thrust out of the attic window of a little schoolhouse which sets back from the road near Oleona, and in one of the most picturesque but isolated sections of that rather wild part of Potter county. Stopping his horses so that the rattle of the harness chains was stilled, his ears were greeted by pitiful calls for help, in an unmistakably feminine voice, and then, looking sharply at the little opening at the gable end of the schoolhouse, he could distinguish the face of a woman back in the shadow of the building, for the window was not large enough to permit her head and arms to protrude at the same time.

Holding a conversation from his position on the ground, the teamster was affrightedly informed that there was a bear on the first floor of the schoolhouse and the woman advised him to run for a gun before he attempted to open the door.

The woman was Miss Crissie Roper, the appointed teacher at the Oleona school, and in the forenoon she had gone to the schoolhouse alone to arrange some things preparatory to the opening of the term and to get acquainted with the place. She expected to find some carpenters at work making repairs upon the interior of the school building, but while the door of the building was unlocked and ajar there were no workmen about, they having, as she subsequently learned, gone to another schoolhouse down the pike several miles to attend to some work, expecting to return to the Oleona school in the afternoon. The men had left their dinner pails there.

Teacher Takes to Attic.

When Miss Roper entered the room and found it deserted she decided that she would turn her attention to sweeping the floor, and swung the door shut in order to get the broom which she thought must be behind it. The door clanged shut and fast, for the spring lock had made her a prisoner without any key with which to unlock it.

Realizing her predicament, the young woman set about to find a way by which she might release herself from her lonely prison. The only way she could accomplish this, as she saw, was to take a small ladder with which the workmen had reached the attic, and which still stood in that position, with its upper rung reaching the opening into the dark apartment, where extra books and other accouterments were kept, and which looked to the timid new teacher as though it was a very likely place for bats to roost, and if she could move it to one of the windows it would afford her an opportunity to get down to the ground.

Just then she heard a sound in a little room off from the main apartment, and at the next instant she was overwhelmed with fear at the sight of a full grown black bear that came shuffling out toward her. The animal had evidently been attracted into the schoolroom through the open door, and, finding the workmen's dinner buckets, had been indulging his appetite in cake and other toothsome delicacies.

But the sight of the young woman and the piercing shriek she uttered as she beheld the animal and recognized that she was locked in the building with him rather startled Bruin, and he retired to the other apartment. In the meantime Miss Roper, seeing a way of escape up the ladder into the attic, climbed up there, bats or not bats, and once up on the rickety floor she drew the ladder up to her, so the bear would have no chance of getting her. She struggled with the little attic window until she got it open, and then began her vigil for help.

GIRL'S HAIR IS CUT OFF WHILE ASLEEP

Revenge by Playmates Thought to Have Been Motive Prompting Deed.

Oklahoma City, Okla.—Revenge by playmates is said to have been the motive that prompted some one to reach through a window of the home of Claude Weaver, an attorney, during the night and cut off the locks of Barbara, his fifteen-year-old daughter, as she lay asleep. When the girl awoke in the morning her long braids lay on the floor near the bed.

Mr. Weaver has hired a detective to work on the case. Recently Miss

Cuts Off Girl's Hair.

Weaver has been taunted by her playmates who resented what they termed her tendency to be "stuck up." Cynthia Powell, a girl friend, also had received a letter threatening her with dire punishment unless she continued to speak to certain boys of the neighborhood. The police suspect that one of these boys cut off Barbara's tresses.

LION CLAWS A LITTLE GIRL

An Eye Gouged Out, an Ear Torn Off and Her Face Terribly Mangled.

Syracuse, N. Y.—Clawed and bitten by a huge lion in a side show at the state fair here, Laura Burns, aged seven years, of Morrisville, N. Y., hovers between life and death. The girl was frightfully mangled when she failed to keep back of the ropes and came within reach of the monster beast.

The lion caught her with one of his massive paws and while he held her fast he clawed her with the other paw as he tried to pull the child into his cage. Attendants rushed to the child's aid, but the animal had her fast in his grip, and infuriated by the taste of blood refused to let lose until prodded with heated irons.

When finally it released the child it was found that the lion had gouged out one of her eyes, torn off an ear, and lacerated her face and the upper part of her body. The great throng and the shouts of the crowd frightened

the rest of the beasts in the tent, so that keepers had to guard them with loaded weapons.

SHOT BY PEEPING NEGROES

Circus Watchman Is the Victim of Blacks Looking in Women's Dressing Room.

Louisville, Ky.—Thomas McCormick, aged 36, watchman for the Barnum & Bailey circus, was fatally shot during the performance here one night recently. Will Anty, a negro, is under arrest for the crime.

McCormick found two negroes peeping into the tent used by women performers for a dressing room. He remonstrated with them and they went away. A second time he caught the peepers and calling an assistant made ready to eject them from the enclosure. One of the negroes then drew a revolver and shot McCormick.

REMARKABLE CASE OF AN EX-CONVICT

Is This Man George A. Kimmel, or Is He the Prince of Impostors?

CLAIMS MEMORY LAPSE

Weird Story of Man Released From a New York Prison Who Claims to Be Former Respected Citizen of Michigan Town.

Niles, Mich.—The first picture shown herewith is that of George A. Kimmel, and was taken 13 years ago. The second is that of Andrew J. White, who claims to be Kimmel, and who came from Auburn Prison to prove his identity to Kimmel's family.

George Kimmel was reported to have died, and his mother and sister tried to collect \$25,000 insurance on his life. Then the man in the second picture turned up in the Auburn penitentiary and the insurance company is trying to substantiate his claim. The man has given some evidence of a knowledge of Kimmel's family and friends, but his supposed mother says he has also shown extraordinary ignorance of some thing which he should remember; and she does not recognize him as her son, though she will not say he is a fraud without further investigation.

Thirteen years ago George Alfred Kimmel disappeared from Arkansas City, where he had been employed in a bank, though several years before that he had left his home in Michigan and had never returned to visit his family. From the day of his disappearance and up to a brief time ago when an Auburn penitentiary convict about to be released announced that he was the

Kimmel and the Ex-Convict.

missing man his family and friends had no word of any kind from him, and the general opinion was that he was dead. Seven years after her son's disappearance Kimmel's mother instituted suit in the St. Louis courts for the insurance which she held on his life. A jury rendered a verdict in her favor and declared Kimmel to be legally dead and upon this verdict one company paid Mrs. Kimmel on a \$5,000 policy. Another company which carried a \$25,000 policy fought the claim and carried the matter to higher courts. Meanwhile this latter company directed a countrywide search for Kimmel and finally announced to the court that the man had been located in Auburn prison.

Friends from this city went east after Kimmel, when word was received that he had been found and they accompanied him from Auburn to Niles, having sent word immediately to his relatives that there wasn't a doubt in their minds as to his identity.

The ex-convict gives a rather hazy but not unconvincing account of his wanderings since he disappeared in 1898. He said: "I left Niles many years ago to go into business at Arkansas City in 1898, and while in St. Louis at that time I was 'slugged' by hold-up men, and for a long time my memory was quite bad. I must have wandered much while in this condition, and eventually brought up in New York. I have little to say about the trouble I got into which made it necessary for me to leave Arkansas City or the mixup in New York, which resulted in my being sent to prison, but I was not responsible at either time, and I do not think that I should be judged for that. I feel better now than I have for 13 years."

The man, who, by the way, was convicted and sent to prison under the name of White, claims that during his years of prison life his mind was so clouded that anything he had to say as to his real self was regarded as the mere wanderings of an irresponsible person, and that it was impossible for him to proclaim himself as Kimmel.

CELEBRATES GOLDEN WEDDING

One of America's most picturesque figures celebrated the golden anniversary of his wedding the other day. This man is Joseph H. Choate, the brilliant lawyer, orator and diplomat, who did so much toward increasing American popularity in England while in charge of the American embassy in London.

Joseph Hodges Choate was born in Salem, Mass., in 1832 and comes of a famous legal family, his father, Rufus Choate, being one of the most eminent lawyers of his time. He was educated at Harvard and was admitted to the bar in 1855. While never a politician in the practical sense he always took an active interest in public affairs and during his legal career in New York took a leading part in many of the reform movements.

Fifty years ago Mr. Choate married Miss Caroline D. Sterling of Cleveland. Their married life has been one of happiness. Not long ago some one asked him who he would choose to be if he were not Joseph H. Choate.

"Mrs. Choate's second husband," was his instantaneous reply. At the anniversary celebration, which took place at Naumkeag, near Stockbridge, Mass., were several persons who were present at the wedding 50 years ago.

Mr. Choate, because of his unique personality, his exceptional mental and physical endowment and his rare intellectual and social powers, will be remembered as one of our strongest representatives at the British Court. While in England Mr. Choate was a general favorite.

FREE FOR STOMACH AND BOWELS

We are in receipt of letters from Mrs. Eva Gaskins, 304 Madison St., Topeka, Kan., and Mr. P. H. Gavelas, Wagener, Okla., as well as many others, telling about the wonderful results they have secured in the cure of their stomach and liver troubles by the use of Dr. Caldwell's Syrup Pepsin.

This remedy, as all readers doubtless know, has been before the public for a generation and is now being more extensively used than any other remedy for stomach, liver and bowel complaints. According to reliable testimony, it seems to be a very quick and lasting cure for constipation, indigestion and dyspepsia, liver trouble, biliousness, headaches, sour stomach, gas on the stomach, drowsiness after eating and similar disorders. It is a liquid with tonic effect, and so mild and gentle in action that a child as well as a grown person can take it, in fact, it has no equal for children, women and old people.

It arouses the flow of gastric juice, and by a peculiar action trains the stomach and bowel muscles to again do their work naturally, and in time medicines of all kinds can be dispensed with. A free sample bottle can be had for trial by sending your address to the doctor, for in this way Mrs. Gaskins, Mr. Gavelas and many others first learned of the cure. Later, when satisfied it is the remedy you need, do as others are doing and buy it of your druggist at fifty cents and one dollar a bottle.

For the free sample address Dr. W. B. Caldwell, 402 Caldwell building, Monticello, Ill.

Economy in Cooking.

Much gas may be saved with a little care. I bought a number of pans of various sizes, but all with tightly fitting covers. Whenever I bake bread or a roast or for any other reason have a hot oven, I plan to cook other things also, as many as the oven will hold. Stewed fruits and all vegetables will cook as well in an oven as on top of the stove if started boiling in plenty of water and then put in the oven in the covered vessels. Potatoes, however, are spoiled by this process.—Exchange.

CANADA'S ROYAL GOVERNOR

The Dominion of Canada deeply appreciates the honor which has been conferred on her by the appointment of the Duke of Connaught as governor general and will give his royal highness a most enthusiastic welcome on his arrival. The distinction which is Canada's in having, as a representative of the British throne, an uncle of King George will be more readily understood when it is stated that never before has a prince of the royal blood been sent as governor general to any of the British possessions over the seas. The nearest approach to such distinction was when the Princess Louise, daughter of Queen Victoria, resided in Canada with her husband, the Marquis of Lorne, who was then governor general. The marquis afterward became and is now the Duke of Argyll.

The Duke of Connaught is the only surviving son of Queen Victoria. He was her third son and the seventh of her nine children. His surviving sisters are Helena, Princess Christian; Louise, Duchess of Argyll; and Beatrice, Princess Henry of Battenburg. If so good a mother as Queen Victoria justly may be said to have had a favorite son, then Arthur William Patrick Albert, Duke of Connaught, was that son, just as the Princess Beatrice may be said to have been her favorite daughter. The duke was born in 1850, shortly after a visit which Queen Victoria made to Ireland, and it is due to an incident of that visit that he bears the name Patrick. In 1897 the duke married the beautiful Princess Louise, of Prussia, second cousin to the present Kaiser. He has three children.

MAY HEAD CHINESE REPUBLIC

Dr. Sun Yat Sen, the Chinese reformer, who was banished from the empire not long ago and is now in the United States, is believed to be slated for the presidency of the republican government when the Chinese revolutionists can take time enough from fighting to organize. There is said to be a standing offer from the Peking government of \$50,000 for the body of Sun Yat Sen, dead or alive.

Each succeeding day has added to the gravity of the situation in China. The imperial government, having discovered that the usual methods used in uprisings throughout the empire are entirely inadequate in this case, has gotten down to the business of real warfare. But the misjudgment of the situation, and the consequent delay in real repressive measures, have given the revolutionists an opportunity to become better organized, draw greater forces to its standard and seize more territory.

Yuan Shi Kai, the banished war head who was recalled recently, has accepted the post of viceroy of Hu-Peh and Hu-Nan provinces, to which territory he is directed to proceed and immediately re-establish the imperial authority.

HARVESTER HEAD IS SUED

Clarence S. Funk, general manager of the International Harvester Company, the McCormick's man of business, clubman, churchman and aspirant for the title of one of Chicago's leading citizens, was recently sued by John Henning, who asks \$25,000 damages on the claim that Funk has alienated the affections of his wife, Josephine Henning. To say that the suit created a sensation is to put it mildly. Funk has recently been before the public of Chicago in so-called moral uplift movements, which well befitted a man of church professions, and his talk of furthering such causes has made him more or less well known to the newspaper public, consequently when the suit was filed it caused wide interest. Mr. Funk entered a denial, emphatic and vigorous as it was possible for a man to make. It is said Mr. Funk first saw and admired Mrs. Henning while she worked in the Auditorium Annex cafe. Mrs. Henning is said to be not only good looking but a real beauty.

Clarence S. Funk is sufficiently in the public eye to warrant the sensation caused by the John Henning's charges. He is widely known as the General manager of the International Harvester Company and has been a familiar figure at Washington, and at Springfield, and in the capitals of other states. In Chicago he is prominent in many ways. He is married and lives in the suburbs of Oak Park. He is known as an active church worker. He has had a Bible class in the First Congregational church and is active in the Y. M. C. A., where last winter he delivered a series of talks to the young men on "Business and Christianity."

Force of Horse's Kick.

The remarkable force of a horse's kick was demonstrated the other day at a training establishment at Kingsclere, near Southampton. The shoe of a thoroughbred flew off and was hurled over the top of the opposite stable, some distance away, at a height of nearly thirty feet, and landed on the glass roof of a greenhouse beyond.

A Destructive Success.

"What has become of that man who said Mars is habitable?" "He made the mistake of convincing too many people. There wasn't enough skepticism to keep up a fairly interesting controversy."

Miss Nola Redd, one of the seniors at M. F. C., entertained her class, members of the faculty and Dr. and Mrs. C. C. Fisher with a five course supper in the dining room of the college Thursday evening, beginning at 7:30. This was perhaps the most elaborate entertainment ever given by any senior to her class. The class is made up of eleven bright young ladies and they constitute a studious jolly bevy of girls. It was not known until within a few days prior to the event that Miss Redd was going to do this. She is one of the most popular girls in the institution and is loved by all who know her. The lunch was largely prepared at her home in Paintsville and was brought to her by her bachelor brother who arrived Thursday at noon, leaving on the afternoon train of the same day. He said that bevy of handsome girls was too much for him. Following is the menu:
First course—Turkey, cranberries, gravy, dressing, potatoes, beaten biscuits, peas.
Second course—Fruit salad in tulip cups, olives, pickles, sandwiches, Toast by Virginia Crutcher.
Third course—Candy.
Fourth course—Cream with nuts and cherries, fruit cake. Toast by Miss Long.
Fifth course—Coffee and mints.
Miss Redd was handsomely remembered by her class and faculty. Others of the lass will entertain in a like manner during the winter.

Two Points of View.

On one occasion, at a party given by Sir John Millais, Lady Halle rose to play the violin, when to her intense amusement she heard Landseer exclaim: "Good gracious! A woman playing the fiddle!" On the other hand, an old-fashioned nobleman, when he saw a gentleman sit down to the piano, contemptuously remarked: "I wonder if the creature can sew!"

DEATH.

—Mr. Jefferson Reed Wells, aged about 70 years, died at the home of his daughter, Mrs. Jennie Hudnall at Spears Mill Sunday morning at nine o'clock after a protracted illness, death being due to uremic poisoning.
Mr. Wells was a widower and is survived by five children, Mrs. Sarah E. Mines and Mr. James Wells, of Fayette county, Martin J. Wells, of Lexington, Mrs. Jennie Hudnall, of Bourbon and John Wells, also of this county.
The funeral will be held this morning at 11 o'clock at the Spears Mill Chapel and will be conducted by the Rev. E. M. Lightfoot, pastor of the Baptist church in this city. Burial will follow in the Paris cemetery.

Will Use Sod From This County.

Matty Schwab, groundkeeper of the Cincinnati base ball park, is planning to sod the new field at League Park with blue grass turf. Mr. Schwab contemplates securing turf for this purpose from Paris and the entire outfield and diamond will be covered with the very finest blue grass sod, secured from the heart of the blue grass region, and with a foundation of loam.

Seeing Good in Others.
Blessed is the man who has the gift of making friends, for it is one of the best gifts. It involves many things, but above all the power of going out of one's self and seeing and appreciating whatever is noble and loving in others.—Thomas Hughes.

Always Original.
There are two words in the English language that, no matter how often they are used, never lose their freshness, originality and charm. One is "sweetheart" and the other is "damn!"—From "The Bramble Bush," by Caroline Fuller.
